

Professional Summary

Senior Software Engineer with rich experience in designing scalable systems, working across teams, and delivering high-impact software solutions. Proven expertise in **Java, Springboot, Kafka, Microservices**, API development and agile methodologies with a strong track record of driving innovation and efficiency.

WORK EXPERIENCE

Senior Software Engineer

Accenture, India | 2015 - Present

- E-Commerce service - Developed scalable applications using Java, Spring Boot, MongoDB and microservices, upgrading legacy systems into latest tech stacks.
- Built **Kafka integration** b/w legacy and new system and migrated ~ 4M SKUs and ~ 1M orders through integration.
- Built utility to validate MySQL and MongoDB data ensuring performance, reliability and proper reporting for business stakeholders.
- Cross-team collaboration: Engaged in requirement gathering, defect fixes, and end-to-end delivery across diverse teams.

Software Engineer

Eko, Udaan, Healthi | 2019- 2023

- Eko (Fintech)** - Worked on multiple Spring boot services to enable, Domestic money transfer, transaction reporting and utility payment (Spring boot, Mysql, Kafka, Azure)
- Udaan (E-Commerce)** - Worked On sourcing and accounting services (Spring boot, CosmosDB).
- Healthi** - Built User Identity service and Doctor consultation services for Healthi (Springboot, Kafka , Microservices, React Basic, Mysql, MongoDB)

TECHNICAL SKILLS

- Java - Python (Scripting)
 - Kafka - Splunk - Dyntrace
 - Git - Maven - Jenkins
- Spring Boot - REST - Junit
 - Microservices
 - Azure - Copilot - AI Agent
- MySQL - MongoDB
 - Data Structures & Algorithms
 - React (Basics)

EDUCATION

Master of Computer Application

NIT Calicut | 2015- 2018

- Major in Computer Science and Engineering
- Completed academic courses with CGPA - 8.15

Master of Computer Application

BHU, Varanasi | 2015- 2018

- Major in Computer Science
- Completed academic courses with CGPA - 7.45

CERTIFICATES AND RECOGNITIONS

- ACE by Accenture - 2025
 - Client Recognitions - 2025, 2026
- Github Copilot Certification by Microsoft
